Supporting SHAC's Housing Union

This branch / committee recognises that housing emergency is a workplace issue. Soaring costs, unsafe conditions, and landlord malpractice experienced daily by members at home directly impact their well-being, financial security, and ability to organise at work.

This branch notes that housing campaign group **SHAC** has launched a comprehensive Blueprint to build a mass, democratic **National Housing Union (NHU)** and is calling on comrades in the trade union movement to help fund the launch of this critical sister organisation.

The principles of the NHU directly mirror the core pillars of trade unionism. Just as trade unions organise workers to balance the power of employers, the NHU will organise residents to collectively challenge the structural power of landlords through five key objectives:

1. **Casework:** Handling individual resident crises and collectivising shared housing complaints.
2. **Litigation:** Launching landmark legal challenges to systematically alter landlord behaviour.
3. **Lobbying:** Campaigning for robust legal and regulatory controls.
4. **Organising:** Deploying staff and a peer-support for long-term, self-sustaining local power.
5. **Cohesion:** Fighting isolation by building solidarity within and between neighbourhoods.

Housing struggles impact every employment sector and region in the UK. This branch / committee therefore agrees **to donate £_____** to help SHAC build this powerful, democratic shield for our communities.
